

# KidRock

## T-Wall Freeform

Standardised and still custom-made - the Freeform KidRock is both. Two base sizes (the space you have) - and you simply choose the height.

The surface is a real rock imitation. Look-and-feel like a genuine rock. Diversified surface design with partly sloping area. The children must not jump but can climb down safely.

All pretty details such as ledges, dents, holes and cracks are individually sculpted. Joints and fixings are seamlessly covered for a continuous surface. The hot-dip galvanized sub-construction guarantees best conditions for the long term outdoor usage.

## Fast and uncomplicated

The standardised footprint usually gives a short lead time. The boulder blocks arrive at a stretch. Quickly placed on the preinstalled foundation you only have to add the fall protection area either of rubber surface, wood chips or shingle, We are happy to advise you.

## Dimensions

2 Footprint: 1,5m x 2m or 1,5m x 3m

2 Heights: 1,7-2m oder 2-2,5 m
